

OPTIONAL FORM NO. 10

UNITED STATES GOVERNMENT

Approved For Release 2002/08/28 : CIA-RDP71B00185A000100040088-3

SECRET

Memorandum

TO :

DATE: 13 July 1965

FROM : DAD/S&D

SUBJECT:

The basic question is whether or not the present reception by several sites of chirps takes care of coverage when the chirp is unreadable at any particular location. The data indicates that reception at more than one site is not generally the case and I don't see that the answer lies in the list. Please retain this data in case the question of how many chirps are unreadable comes up, however, it would be very useful data.
